## YOUR BABY'S SAFE WITH US

Why Daily Direct? For starters, our team is composed of transportation veterans, who are motorcycle enthusiasts themselves. We understand the concerns you have when shipping your prized possession across the country.

Your bike is secured using a specialty shipping system in enclosed trailers which have been designed and tested to protect against damage and wear. Our drivers provide detailed inspection reports to the shipper and receiver with each move. For logistics and security, our trucks are satellite tracked.

Motorcycle shipping is our specialty. In fact, it's all we do. Your bike is never transported with heavy machinery, livestock or somebody's furniture. Everything we use – from the straps which secure your bike to the actual trailer transporting it – is designed especially for motorcycles.

We welcome every opportunity to exceed customers' expectations. Special concerns or custom deliveries? No problem. We are large enough to accommodate you, yet small enough to give you all the personal attention you deserve.

**Every Daily Direct driver is also a motorcycle rider. Wouldn't you rather deal with motorcycle people?**
